Economic Developments and the Banking System, 2023

Global Economy

Many factors and trends play a determining role: Major factors with an impact on global economic growth and trade included geopolitical risks, the struggle against high inflation, financial tightening, high debt ratio, protective measures, regional sanctions and the increasing trend of polarization. Economic growth continued but was below the long-term average. Interest rates remained high due to the fight against inflation. Technological innovations continued to impact changes in digitalization and AI. To reach a consensus on climate and environmental risks, major issues included green transformation and the funds required to implement it.

Geopolitical risks continued to have an impact: The Russia-Ukraine war which started in February 2022 continued in 2023. Furthermore, tensions in the Middle East and the Gaza War resulted with increased geopolitical risks. Attacks on commercial vessels in the Red Sea result with a delay in the reinforcement of the supply chain.

The growth in developed economies lost pace. The global economy is estimated to have grown by 3.2 percent in 2023. The growth rates were 1.7 percent in developed economies and 4.2 percent in developing economies. The global economy is estimated to grow by similar rates in 2024.

Global trade slowed: Global trade expanded by as low as 0.3 percent. International Monetary Fund (IMF) estimates that global trade will expand by 3 percent in 2024 with a limited increase in pace.

Inflation decreased in developed and developing economies: The inflation rate decreased in both developed and developing countries in 2023. Inflation in developed economies was at 4.6 percent. Inflation rate in developing economies was 8.3 percent. The decline in inflation is estimated to continue.

Tight monetary policies implemented at developed economies supported the decrease in inflation. With the decreasing trend in inflation, central banks of developed economies expressed that the implementation of tight monetary policies have been largely completed. The policy interest rate reached 5.5 percent in the US and 4.5 percent in the EU.

Debt to gdp ratio persisted high: Debt ratio increased by 7 percentage points in developing economies and decreased by 8 percentage points in developed economies. Real sector debt ratio increased in developing economies and decreased in developed economies. Low debt to gdp ratio positively differentiates Türkiye from developed and developing nations.

Sustainability: European Union’s “Non-financial Reporting Directive” was revised and the Corporate Sustainability Reporting Directive was issued as of the end of 2022. The directive provides reliable information on environmental, social and governance issues. Carbon Adjustment Mechanism Regulation and European Union Emission Trade were issued.

United Nations (UN) Climate Change Conference (COP 28) was organized in Dubai. Major highlights of the meetings included the implementation of the Loss and Damage Fund established at COP27 and the first ever call to move away from fossil fuels to tackle climate change. Around 200 countries agreed to move away from fossil fuels.

Finance industry and technology: Wider adaption of emerging technologies in the finance industry resulted with wider use of digital products and services. FinTechs now have a larger role and share in the finance ecosystem.

Turkish Economy

Summary

Year 100: In 2023, Türkiye proudly celebrated the 100th Year of the Foundation of the Republic.

General elections: The earthquake, presidential and congressional elections in Türkiye have been major factors with a significant impact on the economy. The slow economic growth especially in EU economies, low trade volume, high interest rates in international markets and financial tightening have been among the international markets.

The earthquake: The earthquake in February claimed many lives. The economic damage caused by the earthquake is estimated to be 10 percent of the gdp. The government has made/still makes major expenditures to compensate the damage caused by the earthquake.

Changes in the management of the economy and policies: General elections did not result with a major change in the political sphere. The economy management has been changed. A new program bringing major changes beginning with the second half was announced. The program has three components:

- Reestablishment of fiscal discipline and ensuring that the budget deficit is in line with Maastricht criteria except for the impact of the earthquake,
- Gradual fiscal tightening and an income policy in line with the target inflation to decrease inflation to single digits in the medium term,
- Structural reforms to ensure macro-financial stability and make sure that other gains are permanent.

Based on these key principles, the Medium-Term Program (OVP) including the basic policies and objectives for 2024-2026 was announced. The Program introduces a transparent, coherent and predictable approach in line with international norms to ensure financial stability and stabilized prices, ensure a sustainable and inclusive growth, boost productivity and competitiveness in free markets and ensure macroeconomic equilibrium through structural reforms.

The Central Bank of the Republic of Türkiye (CBRT) declared a monetary policy in line with the changes in the economic policies and the objectives. The primary objective of the monetary policies was declared to be price stability. The inflation path during the OVP term was shared with the public. The monetary tightening process was started to decrease the inflation rate permanently. It was also declared that monetary tightening would be gradually increased when and where necessary until a meaningful improvement is made regarding the inflation. In this sense, selective loans policy and quantitative tightening will be used to support monetary tightening in addition to increasing interest rates.

The Government also took steps to review expenditures and increase revenues. These measures had inflationary impacts in the short term.

An approach was adapted to boost demand for and ensure stability of TL and encourage savings in TL. Nominal interest rates were increased. New targets were set for the shift from FX-protected deposits to TL deposits. Minimum reserves were increased for liquidity management purposes. In general, limitations were imposed on credit supply. Limitations were imposed on consumer loans to limit domestic demand. Investments, employment, production and exports will continue to be supported.

Second half of the year: The expectations improved and the outlook turned positive. Demand for TL increased. Demand for FX increased. The terms for borrowing from international markets improved. Gross and net reserves increased. Türkiye's risk premium decreased. Its credit rating was increased. The growth was stabilized. The budget deficit was lower than the program objective. Current deficit decreased.

The growth rate was close to the long-term average: Economic activity maintained its vitality in 2023. Growth rate was close to long-term average with 4.5 percent. Domestic consumption was the most significant contributor to growth.

Employment continued to improve: The number of employed people increased by 0.8 million and unemployment rate decreased by 1 points to 9.4 percent.

Inflation rate continued to be high: Consumer and producer inflation rates were high, 64.8 and 44.2 percent respectively.

The policy interest rate gradually increased: Policy rate was gradually increased from 8.5 percent in February 2023 to 42.5 percent as of the end of the year.

TL commercial loan interest rates increased: As a consequence of the increase in the policy interest rate, TL corporate loan interest rate increased by 35 percentage points to 51 percent. TL deposit rate increased by 26 percentage points to 47 percent in the second half.

Currency exchange rates: In 2023, USD/TL exchange rate increased by 58 percent and EUR/TL exchange rate increased by 63 percent. As of the end of the period, USD/TL exchange rate was 29.4 and EUR/TL exchange rate was 32.7.

Budget deficit increased: With the impact of the earthquake, the ratio of the budget deficit to gdp ratio increased to 5.2 percent.

Debt ratio decreased: The debt ratio, already lower as compared to developed and developing economies, continued to decrease. The debt ratio of the public sector decreased by 3 percentage points to 32 percent. The real and financial sectors debt to gdp ratio decreased by 9 percentage points and 3 percentage points, respectively.

Current deficit decreased: The ratio of current deficit to gdp decreased by 0.7 percentage point to 4.7 percent.

International reserves: International gross reserves of the Central Bank increased from USD 109 billion in the first half of 2023 to USD 141 billion in the second half.

External debt stock decreased: The ratio of the external debt stock to gdp ratio decreased by 6 percentage points to 45 percent.

Real sector FX short position retreated: Real sector FX short position retreated by USD 4 billion to USD 83 billion.

Portfolio investments by international investors increased: In 2023, portfolio investments increased by USD 8 billion.

Market value of companies traded at the stock exchange increased. Market value of companies traded at the stock exchange increased by 83 percent to USD 11.4 trillion and its ratio to gdp increased by 2 percentage points to 43 percent.

Banking Sector Overview¹

Banking outlook

The support for protectionism in the global economy is on the rise. Groups are being formed and shattered with a mindset that trade has to be between neighbors. The strategic importance of food, energy, defense and education industries is increasing. In many countries, the issue is to maintain growth while reducing inflation. There are huge technological improvements. The struggle against climate and environment risks is now represented more in regulations and practices. In short, we now experience major shifts and/or transformation in social, economic, technology and environment risks. All these developments have a major impact on the finance industry and the banking system. The banks also play a critical role in this process.

The national banking sector was strong against many recent challenges and increased risks and continued to function. The banks have always been at the center of funding economic activity.

The system served the needs of individual and commercial clients, provided funds for manufacturing, investment and exports and supported employment and growth. The clients were offered services, products and finance solutions through digital channels and technology platforms as well as a vast network of branches. Digital applications made banking transactions a part of the daily lives of people.

A major stakeholder was ensuring secure and timely payments for proper functioning of the payment system.

The sector-maintained access to loans by providing all facilities. At a turbulent time when transformation is of utmost importance, the clients were supported to improve estimations, maintain a competitive edge, adapt to changes and overcome challenges.

Industries are assisted and financed for their transformation for proper management of climate and environment risks. They work to boost green and sustainable resources and loans. They support energy renewal activities. The industry is in close contact with the industries creating huge greenhouse gas emissions like oil and gas, thermal, coal and power generation and guides them in green transformation. Sustainability Activities of the Banks Association of Türkiye

Climate change is one of the major issues of our era both in national and in the international sphere. In addition to its impacts on our daily lives, new definitions are created regarding social-economic and geopolitical issues, sometimes referred to as geo-economics. A major objective is to develop a strong 'green finance' and low carbon model to encourage manufacturing and investments based on the environmental, social and governance (ESG) principles.

The Turkish Banking industry is well aware of its role in the proper management of the issues related with climate change and takes the necessary steps just like in the function of collecting financial resources and making them available.

The Board of the Banks Association of Türkiye (BAT) established the Sustainability Working Group in 2009 to help the banks in terms of environmental and social predictability of their operations and proper management of transparency and tracking.

The sustainability activities are given under the following titles:

- "Sustainability Guidelines for the Banking Sector" drafted by the Research Group in 2014 regarding the environmental and social aspects of development was updated in March 2021 and shared by the members, institutions and the public.
- Statistical efforts are made to objectively measure and monitor sustainable finance efforts. "Guidelines to Develop Green Asset Ratio" was developed for the banking industry based on international regulations and applications. BRSA created a Draft Communique based on the issues covered by the Guide.
- The Working Group is also working on creating a Guidelines on preparing the heat map methodology for the banking sector
- Special Working Groups created by the Ministries under the "Green Deal Action Plan" are attended by our members and the Association. We also attend the Taxonomy Technical Expert Group established by the Ministry of Environment and Urban Planning Climate Change Directorate.
- We made collaborations with international institutions, organizations and universities on sustainability. (EBF, IIF, COP28, World Bank, EBRD, IFC, ABA, ISO, TİM, İGE)
- Webinars, Sustainable Banking Workshop and Türkiye Transition Finance Workshop were organized in collaboration with IIF on "Possible Impacts of Climate Change Risks and Opportunities on the Banking Industry" and "EU Green Deal".
- Basic and advanced training modules on sustainability were developed.
- The Association manages the Sustainability Project based on international best practices on sustainability. ISO14001 certification process was completed under the Project. Sustainability in the Banking Sector: Sectoral Outlook and "Banks Association of Turkey Sustainability Report" in 2022 was drafted and shared with the members and the public.

Sustainability Activities of Banks

The banks focus on and make contributions to sustainability due its direct impact from its operations and indirect impact from lending activities on the environment or the social life.

The activities of the banks are given below in brief: Best practices by the members of sustainability are available on the Association's web site (www.tbb.org.tr) under "sustainability" page.

- Long-term thematic loans are offered to support transition to a low-carbon economy.
- Investments in wind, geothermal, solar and biogas/biomass resources are supported in the segment of renewables.
- The objective of resource efficiency financing projects is to ensure more efficient use of natural resources, minimize waste, ensure reuse of wastes and ensure less carbon emissions.
- Banks offer products and services with environmental and social impacts to raise awareness. Financing clients for sustainable energy, sustainable agriculture, more efficient use of natural resources, waste management, resource efficiency and recycling,
- Finance packages to support SMEs and entrepreneurs and employ women and young people,
- Financing energy and resource efficiency, manufacturing processes and waste management in steel, cement, textile, aluminum, automotive and chemicals industries.
- We also made "Subordinated Sustainable Bond' issues, Shift to Low-Carbon Economy Bond Issue and other sustainable bond issues as well as Sustainable Lease Certificate" issues.
- Various projects were funded to create employment for women under the concepts of gender equality and employment of women.
- Studies are being carried out on the potential effects of legislative changes on the Turkish industry in line with the European Green Deal Action Plan. In this process, our members aim to provide direct and indirect support to their customers during their transition processes. Some of our members are also members of United Nations Net Zero Banking Association based on the objectives set forth by the Paris Agreement and create the climate index.

February 6 Earthquakes

Kahramanmaraş Earthquakes happened on February 6, 2023 and resulted with many losses in 11 provinces. The impact of the earthquakes to the national economy was 10 percent of the gdp. The banks played a major role compensating the losses and meeting emergency needs of the citizens, bank employees and clients. The banks helped ensure that banking services were provided and payment systems were maintained without interruption in coordination with the authorities. Payment of compensations started in the same week.

Board of Directors of the Banks Association of Türkiye held a meeting in the morning following the earthquake and made a resolution to support the regions affected by the earthquake. Loan payments of bank clients affected by the earthquake in terms of payment capacity within 6 months will be delayed if requested by them, new loans will be granted and additional benefits will be provided on an individual basis. Regarding the clients with residence/workplace addresses or bank accounts in locations affected by force majeure, notifications for credit risk, loan payment, checks and bonds will be made in line with the force majeure regulations by the Risk Center.

The second meeting by the Board of Directors on February 14, 2023 resulted with certain additional measures. These include non-payment of fees and commissions for certain banking services in 2023, certain benefits regarding the payment of loans which will be due within the same year as well as the collection, confiscation, follow-up etc. procedures, and cancellation of loans of individuals who have lost their lives.

Following the earthquake in the region, 73 percent of all branches and 34 percent of all ATMs were out of service. In addition to those which stayed intact, we tried to offer uninterrupted banking services through mobile and container branches.

| | Total number of branches | Number of branches in service | Total number of ATMs | Number of ATMs in service | Number of mobile branches | Number of containers in operation |
|--------------------|---|--|-------------------------------------|--|--|--|
| February 14 | 916 | 509 | 4345 | 3258 | 43 | 6 |
| April 27 | 901 | 668 | 3988 | 3628 | 63 | 88 |
| October 28 | 891 | 736 | 3991 | 3811 | 33 | 84 |

Within the first week following the earthquake (as of February 14), banking services started in the region through minimum one channel with the help of 49 mobile and container branches.

Within three months, banking services reached pre-earthquake levels. As of the end of October, all banks were fully operational with 736 branches, 3,991 ATMs and 117 mobile/container branches in a wide extent.

The region was supported in terms of funds after the earthquake. The growth in available loans in the region was higher than the average growth in Türkiye. From the day of the earthquake to the end of October, commercial loans grew by 36 percent in the region and 32 percent in Türkiye. Consumer loans increased in the region 10 percent higher than the average growth in Türkiye.

We extend our thanks to the authorities as well as the employees working in the industry and our members for their collaboration, efforts and contributions. We commemorate our fellow citizens and colleagues who lost their lives with gratitude.
