Pandemic and the Banking Sector

Banks supported the economy with all means possible

The banking sector had a major role in the efforts to minimize the negative impact of the pandemic on the economy. In collaboration with the related institutions/organizations and stakeholders, the industry provided finance and continued services to prevent any interruption in manufacturing, investment, imports and trade.

A coordinated effort was made to minimize the economic contraction by supporting economic activity with loan programs and packages under favorable conditions. New offers were provided to meet urgent liquidity and resource needs of companies and individuals. TL loan volume has increased rapidly in a short time. Care has been taken to ensure that there is no disruption in the cash flow cycle. Additional time was granted to clients through restructuring and/or postponement schemes. Export industries which create employment and foreign currency were supported. This helped clients continue their operations and meet their liabilities against each other and the third parties.

Banks have continued their deposit, loan and payment services uninterruptedly by taking the necessary care in adapting to epidemic measures on public health through properly using operational and digital infrastructure facilities as well as branch networks; and payment systems.

Implementations of Banks	
Loans	<ul style="list-style-type: none">• The Credit Guarantee Fund by the Treasury can now be used more extensively for loans granted to companies.• Credit packages were announced for financing new or second-hand house purchases, meeting financing needs for furniture, electronics, white-goods, home textiles, dowry or bicycles purchases and purchase of new personal vehicles (including motorcycles) or commercial vehicles from contracted companies performing local production.• Use and volume of special loans like the Acceleration Package was increased.• Special loan packages were introduced for a number of industries including textile, construction and automotive.• Special loans were provided for The Union of Chambers and Commodity Exchanges of Turkey (TOBB)-member companies.• The limits of corporate credit cards and the Direct Loan System were increased to support the operating capital requirements.• The companies were provided with long-term loans and a limit increase at an amount equal to the monthly personnel costs to support employment.• Cash management limits were increased and installments were improved to help companies with their legal liabilities including tax and social security payments.• Limits of overdraft accounts and credit cards were increased to use for emergencies on demand.
Restructuring/postponing	<ul style="list-style-type: none">• Primary, interest and installment payments of retail and corporate clients were delayed with the same terms and conditions on demand.• Consumers who were temporarily in default were provided with restructuring and delayed payment opportunities.
Assurance	<ul style="list-style-type: none">• In short-term loans, the assurance time of 2 years and the required time of exports were increased.
Other	<ul style="list-style-type: none">• Transactions on mobile, internet and ATM are now free of charge.• Daily withdraw limits from ATMs were increased.

Regulations supporting / encouraging credit supply were made. The “Asset Ratio” aiming to keep the loan / deposit ratio above a certain level, and a reserve requirement policy that encourages loan growth has been implemented. Meanwhile, swap transactions abroad were limited. In addition, foreign exchange tax has been reintroduced for TL – FX and FX-FX transactions.

Measures Regarding the Banking Sector

Asset Ratio

- A new Asset Ratio decision is in effect. This is the ratio of the banks' loans, securities and the Central Bank of the Republic of Turkey (CBRT) swap to TRY and F/X deposits.

Loans

- Minimum credit card payment was decreased from 30 percent to 20 percent of the amount payable in the relevant period.
- Principal and interest payments for consumer and vehicle loans granted by banks/companies can be delayed on demand.
- The number of installments was increased to 18 from 12 in the tourism industry.

NPR (Non-Performing Receivables) Regulations

- The term estimated for second-group loans was increased from 30 days to 90 days.
- The term estimated for loans for NPR was increased from 90 days to 180 days.

TL access and Swap limitations

- TL placements by banks at international banks (as of July 27, except for UBKs) are limited to 0.5 percent of equities.
- International transactions by Turkish banks are limited to 1 percent of equities.

CAR Regulations

- In CAR calculations, it is now allowed to reflect the loss of value in the Securities Portfolio to the equity and use the F/X exchange rate dated December 31, 2019.

*: Details on the regulations are given in the following sections.

The banking sector has taken measures to protect both its employees and public health during the epidemic period. In this context, the working hours of the branches were changed according to the conditions, and the head office employees were quickly switched to remote work.

Efforts by the Banks Association of Turkey (BAT) to support economic activity during the pandemic

BAT took steps to ease the negative impact of the pandemic in 2020. In the early days of the pandemic, BAT recommended actions to keep loans accessible by small traders and launched "Cheque Payment Support Credit", "Economic Stability Package Credit Support", "Tourism Support Package" and other packages. Furthermore, banks have commenced implementations in terms of improving customers' access to loans and loan conditions, keeping loan channels open, providing flexibility in terms of payment terms, payments, installments and guarantees. Furthermore, banks took initiative and launched "Basic Needs Support" and "Micro Enterprises Support Package"

Regarding the customers who need additional loans; have difficulties in repaying their debts; who are willing to pay their debts but who cannot fulfill their actions on time because the balance of income-expenditure is temporarily affected due to developments in the field of health and the measures taken to limit the epidemic; through separately evaluating financial situation, solvency and long-term debtor-creditor relationship of each of them and, on the basis of mutual good faith; it is recommended that;

- based on the resources and credit limits, loan demands of companies, SMEs and individuals should be swiftly evaluated and met,
 - credit access and terms should be improved,
 - credit channels should be maintained,
 - a certain flexibility should be introduced in terms of due dates, installments and assurances,
 - restructuring requests should be swiftly met.
- Customers detected to have been negatively affected by the coronavirus outbreak should be reported to the Risk Center for a better assessment.
 - Cheque Payment Support Credit: To ensure efficiency of the measures taken within the scope of the "Economic Stability Package", loans are provided within limits to be set by banks for SMEs and other companies for withdrawal of cheques which are or will be drawn in relation to their commercial activities. The loans are supported by the Credit Guarantee Fund (CGF).
 - "Economic Stability Package Credit Support" was launched to help SMEs and other corporate clients with their operating capital needs. -CGF assurance supported by the Treasury was provided to support the clients with assurance for loans. The interest rate has been defined as 9.5% for 12 months, with 3 months delay for primary and interest payment.
 - Banks were recommended to remind their provincial branches where curfew is imposed, to use alternative channels rather than the branches for all banking transactions and actions, or delay the actions of clients until April 27, 2020 and May 20, 2020.
 - BAT Risk Center Board took a decision that the notifications to be made by members on April 24, 2020 and May 18 regarding the transactions in the provinces with curfew, would be made one week later and that the curfew should be notified in the force majeure notifications of customers who failed to make their payments on such dates.
 - Detailed risk information was shared based on the decision of the BAT Risk Center Board for the purpose of supporting the effective and accurate evaluation of credit applications by the Credit Guarantee Fund, which is a member of the Risk Center.

Balance sheet growth has accelerated: The rapid growth in credit supply and the depreciation of TL accelerated the total balance sheet expansion of the banking sector. The ratio of total assets to gdp increased by 17 points and reached 121 percent.

Loans increased rapidly: While the growth rate of the loan stock was 11 percent by December 2019; It rose to 43 percent in October 2020. TL loans increased by TL 711 billion, and total loans increased by 920 billion TL. The loan / GDP ratio increased by 12 points within a year. 52 percent of the loans were extended to large enterprises, 24 percent to SMEs, and 24 percent to retail customers.

Credit risk: As of September 2020, the share of loans classified in the first group in the total is 85 percent, while the share of loans in the second group is 10 percent. The ratio of general provisions

to loans classified in the second group is 22 percent. The non-performing loan ratio was 4.3 percent as of the end of the year. It is estimated that the extension of the monitoring period from 90 days to 180 days for the provisions to be set aside for the loans also had an effect on this. The non-performing loan ratio is 4.7 percent in corporate loans and 2.1 percent in consumer loans.

Restructuring: Restructured loans reached TL 194 billion in September 2020.

Support to public finance: The increasing borrowing requirement of the public sector was financed to a large extent by banks. The securities portfolio, mainly consisting of Government domestic debt securities, increased by TL 164 billion in TL assets and increased by TL 362 billion in total.

Deposits increased mainly in foreign currency: TL deposits increased by TL 287 billion and total deposits increased by TL 888 billion. The gap between TL loans and TL deposits was widened.

TL loan / TL deposit ratio increased: The loan-to-deposit ratio was realized at the level of 104 percent. This ratio increased by 20 points to 152 percent in TL loans and deposits, and decreased by 14 points in FX loans and deposits and was realized at the 64 percent level.

Additional liquidity opportunity from the CBRT: The liquidity used by CBRT through repo and swap transactions in order to finance the increasing gap between TL credit/loan expansion and TL deposits increased from TL 251 billion to TL 568 billion between December 2019 and December 2020.

Currency substitution increased: The share of TL deposits in total deposits decreased from 49 percent to 44 percent. In addition to the increase in demand for foreign currency and gold, the accelerated depreciation of TL also had an effect on this development.

Net payments abroad: Demand for foreign currency loans decreased due to the slowdown in economic activity. Banks decreased their foreign borrowing and made net payments. The debt rollover ratio fell below 100 percent. Borrowing cost has increased.

The share of TL in balance sheets: The share of TL was 49 percent in resources and 58 percent in assets.

Exchange ratio risk stabilized: The ratio of net general position to shareholders equity was plus 4.4 percent.

Loan and deposit rates: Deposit and loan rates hovered around the CBRT weighted average funding cost during most of the year.
